**Subject:** Heads Up. Fwd: SEPW PFAS bill - TRI  
**Attachments:** MAZ19601NDAAFINALFILED.pdf; ATT00001.htm; SEPW TA.TSCA TRI.6.10.19.docx; ATT00002.htm

Heads up on the SEPW request for a call tomorrow to resolve perceived inconsistencies between our previous and latest TA. The SEPW will need to go forward by noon Monday. Let me know if you would like to discuss with OPPT before the call (whenever that is scheduled).

TRI team – the attached text will be the basis for the Senate EPW business meeting on Weds, June 19. Several PFAS bills are combined into one stand alone document – the TRI portion is on pp 2-13 of the PDF version. As mentioned in the committee staff's note below – they were concerned that the most recent TRI TA (attached) seemed not consistent with their understanding of earlier TA discussions regarding the best way to capture new chemicals and what SNURs trigger TRI reporting. As a result, SEPW retained the earlier language and request assistance in resolving the questions raised by the most recent TA

**Subject:** SEPW PFAS bill - TRI

TRI team – the attached text will be the basis for the Senate EPW business meeting on Weds, June 19. Several PFAS bills are combined into one stand alone document – the TRI portion is on pp 2-13 of the PDF version. As mentioned in the committee staff's note below – they were concerned that the most recent TRI TA (attached) seemed not consistent with their understanding of earlier TA discussions regarding the best way to capture new chemicals and what SNURs trigger TRI reporting. As a result, SEPW retained the earlier language and request assistance in resolving the questions raised by the most recent TA. They would like a call to resolve the questions – unfortunately they only have until noon Monday to make any changes to the language. After that it will be much harder to make changes. Realizing this is short notice, what availability do folks have for **a call tomorrow on Fri, June 14**. Thanks,

Sven

**Subject:** NDAA amendment

Hi all

The attached was filed as a Capito-Carper-Barrasso amendment to NDAA (Senators Gillibrand, Sullivan and Shaheen were added as cosponsors shortly after we filed). It consists of many of the pieces you've seen and provided TA on, and a few you have not. Additionally, there was some TA that came in too late for us to process, other TA we didn't have time to resolve, and some provisions that Senate leg counsel redrafted that we had limited time to review before the filing deadline. The upshot is that this is the text we are also likely to use as base text for noticing the June 19 EPW business meeting, but we anticipate making changes to this text and possibly adding to it at the Wednesday business meeting which could then find their way back to NDAA Floor consideration.

So – please provide feedback or questions/concerns as soon as you are able to. One specific matter we know we would like to resolve is the TRI SNUR references, which are unchanged from the last time you saw them because we are hearing conflicting messages from you on how to best draft that.

Thank you again for all of the TA and time-

Michal
